Managing Editor JEBAS <jebasonline@gmail.com> to me

Sat, Dec 10, 2022, 10:41 AM

Dear Dr. Adi Jaya,

We have received your articles for consideration for publication in the *Journal of Experimental Biology and Agricultural Sciences*. Thanks for showing your keen interest in JEBAS and submitting your valuable work to us. Your MS has been assigned the number **JEBAS202201093** (*Effects of Liquid Organic and NPK Fertilizers on Nutrient and Flavanoid Content in Grass Jelly (*PremnaoblongifoliaMerr*) Stem Cutting Leaves in Tropical Peat Soil*). Please use this number when corresponding to this manuscript or you can track your article's progress through your online submission credentials. With this, we would like to inform you that if your article is found suitable for publication you have to remit **USD 340** as a manuscript handling fee. Kindly acknowledge the email's receipt and confirm that you agree to the suggested APC.

With warm Regards

Managing Editor

Dear Dr. Adi Jaya

Please find reviewed manuscript attached, we are going to upload the issue on 6th January 2023, so please try to complete all formality by tomorrow night, so we can publish this article in this January issue.

Usually, we published the issue at the end of the month (31st December 2022) but due to this manuscript, we stop the processing of the complete issue, so please cooperate with us and complete all suggested formalities by tomorrow night so we can upload the issue at least on 6th January 2023.

I know language editing is our part but some technical issues were reported these should be resolved by you. Following are the technical issues, which must be resolved by you.

Following revision required from your end

1. Add latest citations of 2021 and 2022

2. Please add some citation published in international journals

3. Please give citations for the standard methodology

4. In materials and method, critical revision required in following thing.

a. How different growth parameters were measured, please give brief methodology supported by latest citations

b. How N, P, K and Flavonoid were measured, please give brief methodology supported by latest citations

c. Information regarding the statistical analysis is missing, please add separate heading for statistical analysis.

5. Results section also need some revision, please give standard error mean or standard deviation for each data.

6. Revise all citations as per APA citation pattern.

7. Following two citations are cited in the text but missing in the reference section of the manuscript.

a. Anda et al. (2021),

b. Nofani (2008)

8. Following citation is cited in the references but missing in the text

a. Sulistiyanto, Y. (2017). Dinamika Hara pada Hutan Rawan Gambut Tropika. Kanisius. Yogyakarta. 158 hal.

Managing Editor JEBAS

to me, y

Sun, Jan 8, 9:22 AM (5 days ago)

Dear Author,

Your research article is scheduled to be published in the next issue of Journal of Experimental Biology and Agricultural Sciences. I am herewith attaching galley proof of the same for your kind perusal. Kindly go through the proof very carefully and point out errors, if any. Please make a list of changes in given format and sent it to me. With this please check once again the correctness of the bibliography. Kindly, note that no further corrections shall be possible after this stage. Corrections, if any, or NIL REPORT must be sent to me within next two days or earlier if possible. Your prompt response shall allow us bringing the next issue of JEBAS at its scheduled time.

We thank you for considering the JEBAS a suitable medium of publishing your research work. We hope to receive more manuscripts from you in future.

Error should indicate in the following format

S. No	Page Number	Column Number	Paragraph Number	Line Number	Present sentence	Correct sentence (Please highlight the correction)
1						
2						
3.						

ORCID is required for all authors

With warm regards

Dr K K Chaudhary

↶

⋮

Dear Editors,

Thank you for the email regarding Proof reading. We are very satisfied with the results of language and layout editing that has been done by the JEBAS editor. There is no sentence correction in the article except for a few units to make superscript writing consistent (marked in yellow in MS). There are also multiple references and one of them should be removed (Purcel et al, highlighted in yellow). We have also added the DOI number (separate file in word form, if you want to use it to improve the bibliography). That's all our input.

Thank you.

Best wishes,

Adi Jaya
